## Montville Messenger Montville Township is Open for Business

Be sure to check out this year's edition of the *Montville Messenger*! Copies should be arriving by mid-June to your residence via the US Postal Service.

This year's *Montville Messenger* features articles ranging from the Fourth of July Celebration to volunteer organizations in town and array of information from various departments in Town Hall. The theme for this year's edition: Montville Township is Open for Business!

## Montville Township Water and Sewer Department David Kirkham, Director

With the Summer months upon us, we must all be cognizant of our water consumption. Water conservation is something we can all do. Excess use of water can impact the availability of water for lawn watering and other outdoor activities if supplies fall low due to drought. Unnecessary water use also adds to your utility bill. Below are some things to consider that will save water:

- Repair any leaking faucets. Even a small leak can add up` to thousands of gallons per year.
- Limit showers to 10 minutes and use water-conserving shower heads.
- When hand washing dishes, do not let the water run. On/off is the rule.
- Likewise, when brushing teeth or shaving. On/off is the rule
- Scrape dirty dishes before placing in the dishwasher rather than rinsing.
- Do not fill bathtub more than 1/3 of the depth.
- Check toilets for leaks. Add some food coloring to the toilet tank. If the color moves to the bowl over time, without flushing, then you may have a leak or water is going out the overflow.

Involve all the persons in your home to make water conservation a family effort. If you need any assistance to determine excess water use, please reach out to the Montville Township Water & Sewer Department at (973) 331-3330 to arrange for a home visit.
